Final Event Ends Daly City's 50th Anniversary

Grand Ball Saturday Night Brings Daly City's Celebration To A Close

More than 800 people braved the hottest October 14 recorded in the Bay Area in 47 years to attend the Daly City Golden Anniversary Celebration grand ball which brought to a close the largest community promotion program ever undertaken in San Mateo County.

The ball at the War Memorial Community Center was the final event in a program which began with a civic banquet on September 30 and included a full schedule of events from October 7 through October 14.

High point of the celebration was the kickoff parade which attracted a crowd estimated at 100,000.

The celebration was featured on radio and television stations throughout the Bay Area and won space in newspapers throughout the West.

The eight-day Golden Anniversary program included a spectacular fireworks display, a street dance, a festival of music tracing the religious history of the city, a band concert, a baseball game, a youth in government day, an old time vaudeville show, a musical salute from San Francisco State College, a golf tournament, a bowling tournament and a variety of musical and dancing shows and exhibitions.

There was a commercial garden exhibit featuring more than $50,000 worth of plants, a mobile barber shop display, an armed forces exhibit, an old time picture display, daily exhibitions in gun handling by Frank James and free stagecoach rides each day for the children.

A feature of the grand ball was a grand march led by city officials and members of the Golden Anniversary Committee.

Winners of the Golden Anniversary Beard and Moustache Contest were selected at the ball and were presented trophies.

Grand prize winner with a flowing white beard was Charles Addington of 111 South Mayfair Avenue.

Joe Marasco and Barbara Hicks were crowned King and Queen of the bowling tournament.

Councilman Francis P. Pacelli was presented with a scroll citing him for outstanding community service for his work as executive chairman of the Golden Anniversary Committee.

The committee also presented him with a "meritorious community service award" and a gold watch.

Trophies also were presented to participants in the commercial garden display which attracted large crowds in a specially erected tent at Palmcrest Drive and Southgate Avenue.

With the conclusion of the Grand Ball there remained only one event connected with the city's Golden Anniversary festivities.

That is the Golden Anniversary Dog Show which will be held in Marchbanks Park Saturday.

Originally scheduled for last Saturday, the event, open to all purebred dogs, was postponed because of conflicts with other dog shows in the area. More than 1000 trophies and at least that many ribbons will be awarded in the event sponsored by the Westlake Kennel Club.

Dies Unexpectedly

Rites Held For Monsignor Tozzi

A Solemn Mass of Requiem Coram Episcopo was offered Saturday, Oct. 14, at All Souls Church for the Rt. Rev. Monsignor Egisto Tozzi, pastor of All Souls Church in South San Francisco and internationally known figure in the Catholic Church. He died unexpectedly on Oct. 11 while en route home from a Yosemite vacation. He was 79 years old.

An apparent heart attack claimed his life as he was at breakfast with his vacation companion, the Rev. Lawrence J. Krause of Visitacion Church, San Francisco.

Born in Civitella d'Agliano, Italy, in 1882, Monsignor Tozzi was ordained in Rome in 1905. He came to San Francisco in 1909 and served as assistant pastor in churches of the Archdiocese.

He was named pastor at Cloverdale in 1921 and then served in Manteca and San Pablo, before taking over All Souls Church in 1940.

In 1939, he served as secretary to Angelo Cardinal Dolci of the Sacred College at the Vatican, and as such took part in the conclave at which Pope Pius XII was elected. He was appointed Papal Chamberlain the same year by the new Pontiff.

A school has been named for Monsignor Tozzi in Rome and eight years ago he was awarded the Star of Solidarity by the Italian Government for his efforts in promoting good will between Italy and the United States.

A vigorous man, Monsignor Tozzi was skilled at fencing, wrestling, boxing and handball. He would recall when he had dinner with John L. Sullivan.

In 1939, while he was a pastor of St. Paul's Church in San Pablo, he chased away three Christmas revelers trying to break into the church and hastened them on their way with a blast from a shotgun.

In 1954, when fire broke out in the tower of All Souls Church, Monsignor Tozzi, then 72, carted out records and valuables in a pillowcase.

Trick-Treat For World's Hungry Children

Hallowe'en will soon be here with "Tricks or Treats."

How would you like to change that slogan to read this way; . . . "The trick is to treat all the world's children."

Here is how it can be done.

Boys and girls from South San Francisco will be trick and treating for the United Nation's Children's Fund. (UNICEF). They will ring your doorbells on Hallowe'en night or before and ask you to drop coins in their boxes. Following are a few examples of how your money will be used.

$1 will pay for enough vaccine in Indonesia to protect one hundred children.

$5 will give enough vitamins to 25 African children for 100 days—where malnutrition is a chief enemy of children.

$25 buys a bicycle in Malaya to carry a health worker on home visits.

$50 gives enough equipment for a small doctor's clinic in Brazil.

$100 transports powdered milk to India to give 1,700 children a glass of milk every day for a month.

$200 buys enough tools and equipment for school gardening project to improve child diets in Guatemala.

$500 enables ten nurses to attend a three months course in public health in Southern Asia.

Will you give to the Hallowe'en "ghosts" when they come to your door? Remember, "the trick is to treat all the world's children."

IDENTIFICATION

Under the sponsorship of several churches throughout the city, they will receive stickers and tags before ringing doorbells, and each child will have proper identification. Only children bearing the UNICEF symbol are authorized to collect contributions to the Fund.

At the same time, over 11,000 other communities will hold a similar program, sponsored nationally by the U.S. Committee for UNICEF. Last year the

Police Search For Attacker Of Teenager

Police searched throughout the Crocker Hills Monday night, Oct. 16 after a 14-year-old girl was reported criminally assaulted by a man carrying a 30.06 caliber rifle.

The man apparently surprized the girl and her 16-year-old male companion as they were parked at Crocker Hills on the Scenic Way about 8:30 p.m. He was reported in his early 30s and had a southern accent.

The girl and boy related the following story to Daly City police:

The man forced them to lie down and removed their shoes and tied the boy's feet. Then he went through the girl's purse and got a black scarf and tied her hands. He was also wearing a black scarf across his face.

He then talked to the girl and boy for about an hour and a half, then led the girl away under force to an area south of the Scenic Way where the criminal assault reportedly took place.

The boy, meanwhile, freed himself and flagged down a motorist and reported the crime to police.

Police found the girl walking south from the area where she confirmed the story. She said the man left the area carrying the rifle.

He was described as in his

Daly City-Colma Lions Club Hold "White Cane Days" October 20-21

Friday and Saturday, October 20 and 21, have been established by the Lions Clubs throughout the nation as White Cane Days. On these days the Daly City-Colma Lions Club will be selling white canes throughout Daly City to increase their White Cane Fund.

This money is used to assist the blind by purchasing for them many of their needs, by helping to finance the training of guide dogs and by contributing to the Lions Foundation for The Blind. A part of the money is also used to purchase eye glasses for those children who could not otherwise afford to purchase glasses.

The Daly City-Colma Lions and Lionesses will be at the various business centers of Daly City on October 20 and 21. The purchase of a white cane from them will be put to a most worthy use.

Lions and members of their families, some 70,000 strong in California alone, will pin miniature white canes on lapels of citizens Friday and Saturday to collect funds for aid to the blind and those visually handicapped.

Art Linkletter, national chairman of White Cane Days, asked Americans to donate generously to the cause.

"Money for this worthy program, now in its 11th consecutive year as a Lions Club, International project, is spent at the local level to provide financial assistance to needy blind and those suffering sight impairment," Linkletter said.

Karl Barnum of Monterey Park, California-Nevada chairman of White Cane Days, said the two-day campaign quota has been set at $250,000.

"The Los Angeles Foundation for Junior Blind and the Lions Hospital for the Blind in San Francisco have been designated as major beneficiaries in California this year," Barnum declared. "Though the decision of where each dollar is to be spent is determined by each club."

Many other states and districts are also observing White Cane Days this weekend, though this again is at the discretion of local clubs.

Lions Club members donate thousands of man hours to manufacture the miniature white canes used to symbolize the need for aiding the blind and in taking up collections on thousands of street corners throughout the nation.

WHITE CANE DAYS—Calling attention to White Cane Days in Daly City are (left to right) Mrs. Raymond Charette, president of Lioness, Mrs. Del Wilson, vice president of Lioness, Anne Marie Putkey, daughter of Daly City-Colma Lions President John Putkey and Michael Wright, chairman of White Cane sales in Daly City

Planners Elect New Officers

The Daly City Planning Commission, at their regularly scheduled meeting, held an election of officers. Richard Dwyer, long-time member of the commission and retiring chairman, turned the gavel over to McRobert Stewart.

Dwyer, who has served as chairman of the commission for the past three consecutive years, is a self-employed public accountant in San Francisco. Dwyer, together with his wife, Dorothy, and their five children, lives at 73 Dorchester drive in Westlake. He is a past president of the Westlake Catholic Men's Club.

Stewart, relieving Dwyer, is also a Westlake resident and a board member of the Westlake Subdivisions Improvement Association. Stewart, a newcomer to the Planning Commission, recently appointed in October, 1960, is assistant manager of the White Lumber Company, located on Junipero Serra boulevard.

John Schaeffer turned over the job as Planning Commission secretary to Delbert Gore of 1272 Southgate avenue. Gore, another recent appointee to the Planning Commission, is general manager of the American Broadcasting Company. In addition to his duties as Planning Commissioner, Gore is active in the Milline Advertising Club, Green Hills Golf Club, and a local Boy Scout troop.

Past Planning Commission secretary John Schaeffer has been with the Planning Commission since November, 1958, and is currently an attorney with the firm of Cooper, White and Cooper in San Francisco. Schaeffer and his wife, Jane, together with their three daughters, live at 752 North Mayfair avenue in Westlake.

The first Parent-Teacher group conference for kindergarten B, Abraham Lincoln Elementary School, was held in the home of Mrs. Garland Welch, 683 Skyline drive, on Thursday, Oct. 12.

Twelve mothers of children attending the afternoon session of the kindergarten were invited to come together for an hour of discussion of the curriculum and aims of the kindergarten year.

This type of informal meeting was first inaugurated in the Jefferson Elementary School District by the principal, Dr. Lloyd Andrews, and the two kindergarten teachers of Abraham Lincoln School during the fall months of 1960 and was found so stimulating and rewarding in furthering understanding between parents and teachers that it has been continued in 1961.

Among those present at the discussion were Mrs. Francis Hunt, Mrs. Fred Pardini, Mrs. Norma Roche, Mrs. David Trimmer, Mrs. Rodolfo Vasconcelos, Mrs. Welch and the teacher, Mrs. Kay Bollendonk.

REFINED NICKEL

Electrolytically refined nickel is the form of nickel most generally used for alloying purposes.

Soon Time For Those Tax Bills

San Mateo County, with a 1961-62 tax rate of $1.6212 compared with $1.78 for 1960-61, is one of 21 California counties having lower tax rates in the current year, California Taxpayers' Association's General Manager S. J. Arnold reported today. County tax rates are not always comparable because some counties include certain specialized school rates and San Francisco's rate includes all city and school functions.

The 21 counties showing decreases in county tax rates include: Alpine, Butte, Colusa, Contra Costa, El Dorado, Humboldt, Imperial, Kern, Lake, Los Angeles, Madera, Marin, Mariposa, Mendocino, Modoc, Mendocino, Modoc, Plumas, San Francisco, San Mateo, Sierra, Siskiyou and Solano. The decreases ranged from a high of 72 cents for Alpine to a low of $0.0004 for Los Angeles.

Thirty counties in the State had higher tax rates in 1961-62 than in 1960-61. These include: Amador, Calaveras, Del Norte, Fresno, Glenn, Inyo, Kings, Lassen, Merced, Mono, Napa, Nevada, Orange, Riverside, Sacramento, San Diego, San Joaquin, San Luis Obispo, Santa Barbara, Santa Clara, Santa Cruz, Shasta, Sonoma, Stanislaus, Tehama, Tulare, Tuolumne, Ventura, Yolo and Yuba. The greatest increase was 65 cents in Amador and the smallest was $0.0016 in Inyo.

Seven counties: Alameda, Monterey, Placer, San Benito, San Bernardino, Sutter and Trinity showed no change in tax rate from 1960-61 to 1961-62.

"Tax bills soon to be mailed bring home to the taxpayer the true meaning of governmental costs," Arnold said. "It should be remembered that the size of the tax bill was determined when spending decisions were made earlier in the year during the preparation of county, city and school budgets. Excessive spending leads to high tax bills."

RACCOONS

The raccoon, according to the National Automobile Club, is one of the few American mammals that has no living relative in the Old World.

Ellen Rosenberg Receives Phi Beta Academic Honors

Ellen Rosenberg, Westmoor High School's 1960 valedictorian has received new academic honors. The Mills College sophomore has received the East Bay College's Phi Beta Kappa award.

Given by Zeta, the Phi Beta Kappa chapter at Mills, this honor is presented each fall to the sophomore who attained the highest academic record of her freshman class.

Although the award, a cash gift, does not entitle the receiver to Phi Beta Kappa membership rank, it is one of the highest academic honors available to a lower classman at Mills College.

Ellen, whose major student interest is English, is active in student affairs, being chairman of orientation for new students for Orchard-Meadow Hull. In addition, she works part time in the school library. Ellen received honorable mention in the freshman short story contest at Mills.

While at Westmoor, Ellen was editor-in-chief of the school newspaper, Rampage, president of the Future Teachers Club and active in California Scholarship Federation and the modern dance group.

THE RIGHT KIND OF WAR!

America's doctors and the federal government are joining forces to declare all-out war on medical quacks and charlatans. These unsavory characters bilk the sick and gullible of hundreds of millions of dollars a year through the sale of useless gadgets, phony nostrums, fake reducing pills and the many other gimmicks of the medicine show trade.

The campaign was launched at the First National Congress on Medical Quackery, held in Washington, D.C., October 6-7. Joint sponsors were the American Medical Association and the U.S. Food and Drug Administration. Panels of distinguished speakers were heard. Many state and county medical societies sent representatives, and these reported at home on the plans for co-operation with enforcement agencies and a step-up of public education for an accelerated drive against the quacks.

Here's a war that everyone can wholeheartedly support. And the layman should keep his eyes open and his ears alert for the information that will be disseminated. For the quacks and charlatans, whose successes have reached alarming proportions, do more that rob us of our money. In innumerable instances, they are responsible for needless death, injury, suffering and prolonged illness.

A WIDENING GAP

There has been a long, continuous controversy over the merits and demerits of Britain's National Health Service—a system of socialized medicine under which everyone is entitled to "free" medical care.

Now a thoroughgoing, scientific study has been made of that service based on the evidence accumulated during its 13 years of existence. The author is John Jewkes, a distinguished British economist and an Oxford professor, with his wife serving as collaborator. The substance of their findings is that socialized medicine has resulted in a deterioration of the standards of medical care, and has been a massive barrier to progress.

For instance, Professor Jewkes and his wife state that the system may have "positively hindered the growth of British Medical Services." They say that "the average American now has more medical services than the average Briton," and that "the gap between the two has been widening" since inception of the system. They pose this basic question: "How, it may be asked, can a medical system which is progressively creating despondency and frustration among the doctors be regarded as fundamentally sound in conception?" And they add that medical research in England has been starving, progress in certain kinds of medical education has been discouraged, and centralized government control of medical services has resulted in increasing administrative delay and confusion.

NOT A PRETTY PICTURE

The federal government spends $18,000 a minute. That works out to more than $1 million an hour, $26 million a day, and $3 billion every 100 days.

Last year the interest on the national debt alone was $9.5 billion. It will be higher this year, as the debt limit has been increased.

This is the result of spending money we don't have. We are simply passing the bill on to future generations, which is about as sorry a legacy as anyone can think of. And with it we have been creating a welfare state which, if the current trend keeps on going, will handcuff their freedoms even as it drains their pocketbooks. It's not a pretty picture.

DOLLAR INCOME VS. REAL INCOME

Most people have larger dollar incomes now than they had in 1946, just after World War II.

But that doesn't mean that we have higher "real incomes"—a term which covers purchasing power—for taxation and inflation have sorely worn away the dollar's worth.

The Tax Foundation tells the story. If a married couple with two children had an income of $3,000 in 1946, they need $4,756 now if they stayed even—a jump of 59 per cent. And the percentages are pretty much the same for most other income brackets.

What will the "real income" value of the thinning dollar be five, 10 or 15 years from now, at the rate the federal government is spending and going into debt?

CENTRAL AMERICAN EDUCATION

By PARIS B. SIMMONS

When so many are anxious to migrate to the United States, the North American finds it difficult to understand that there are Mexican Nationals who have refused the opportunity of becoming U.S. citizens. Senor Olivares is such an individuals. He is a citizen and a resident of Irapuato, Mexico. Giving up the possibilities offered him through U.S. citizenship he returned to his country to help his people. His story is not complete, neither is the effort he is putting forth to raise standards of living, by example, for his countrymen. He is a father, nine times, a devoted husband, a restaurant manager, and has built a home peso by peso, progressing on a completely cash basis. In addition, he has acquired, by frugal management, nine cows and a calf.

Sr. Olivares has much to say to the North Americans whom he loves and respects. By means of tape recordings, notes and memory, a six hour interview with this fascinating person has been condensed in this, and the ensuing article of this series. In the present article he discusses home life, schools and attitudes. In the next, he expresses definite opinions on such items of national importance as communism, U.S. aid and problems facing the Mexican nation.

The writer takes extreme pleasure in introducing to his readers Sr. Alberto Gordillo Olivares:

"I would prefer to have you call me Alberto. It is correct in Mexico to address friends by their first name. Gordillo was the name of my father and means 'not fat.' In our country the middle name is that of the father and the last name that of the mother. My last name, Olivares means 'Olive Grove.'

"At a very early age my father died and an aunt from St. Louis, Missouri, took me into her home to be educated. I love the United States and consider it my second home. I showed talent in drawing, and after graduation from high school was offered further education and employment, provided I would apply for U.S. citizenship. This, I could not do, for the yearning I had for my homeland and people was very great. I felt I must return to Mexico to do whatever was in my power for my country. I would not be in my present position without the education I received I have nothing but compliments for your school system. For this and the happiness I had there I shall always be indebted.

"When I did return to Mexico, I saw the poverty of the people just after crossing the border. I wanted to return to the United States, but I could not because my place was here. God willing, I hope to take my wife on a trip to your country before we die. I have spent many hours telling my wife and family about your wonderful land. I would not go on such a trip without my wife, even though she speaks no English.

"You will note that I will refer to you as North Americans. Many tourists appear in our country and call themselves Americans, as though there were no others. This is resented because all the ctizens of Central and South America are also Americans.

"I own my own home and built it a peso at a time. Even after ten years it is not finished. I had the kitchen built first because this is the room of my wife, and mother of our family. I had the home constructed in the poorest section of town where it might be an example for my neighbors. My neighbors were puzzled and felt I must be crazy to build such a house. I wanted to inspire others to build, for in doing so they would be improving their standard of living I have not been too successful. I have been very discouraged, but I shall not give up. I shall continue to try for the rest of my days.

"We do not have television, nor do we have electricity. I run my home on gas. In Mexico when an electric line is run, the last person on the line has the right of way and may refuse to allow any further add-ons. My neighbor refused because he said my home might take so much electriicty that his electrical equipment would not function properly. I solved this problem by putting in gas. My neighbor can keep the electricity, although I am much put out by his selfishness. Fixtures are very difficult to obtain. Right now I am trying to get the fixtures that will fit over the gas lights and it will be necessary to contact many firms before I locate them.

"When I started my home, my children were not robust, but very skinny. I bought a cow and the children have filled out and become much healthier. Now I have nine cows and a calf. Sometimes a decision has to be made whether we save for a new cow or add to our home.

"On household conveniences, we have a battery operated radio and phonograph. We do not have much furniture as we are buying this when we can afford it. I wanted to obtain a washer for my wife, but she does not want one. She says that it would take away the pleasant association she has with her washing woman, which gives her the opportunity of talking with her helper on home and family life.

"All my children, except the very youngest, have daily chores. They are up at least two hours before school tending to their jobs in the barn. When they get home from school in the late afternoon they work until it is dark. My children must understand and respect the value of work and the responsibility that goes with it.

"My children go to school from 9 until 12 and then from 3 until 5. I take them to school in my car, which is of North American manufacture. I wouldn't have the foreign makes because one good bump and you have to get a new car. The school children seldom are released on time. Generally they stay an extra hour at noon and in the evening to work on sewing, or crafts.

"Our schools are not comparable to schools of the U.S. Our teachers make very low salaries, none over $90 per month in rural areas. Very few of our teachers have the training that is required to teach in the States. Many have only a sixth grade education, some less.

"One of daughters wants to learn English. She has been after me for a long time to teach her. I would like to send her to the States so that she would learn English and be able to come back and teach it to her brothers and sisters. We, your people and mine, need a common language, whether it be Spanish or English. Without if we cannot speak intelligently to each other, nor adequately express our feelings.

"My eldest daughter works here in town. She is a very good girl and very devoted to our family and her mother. She turns over all of her paycheck every week to her mother, and then spends her spare time helping at home. My oldest boy is away from home and insuccessful employment. He sends money home to his mother, but he is young and he has many girl friends to entertain.

"My children are never out by themselves at night. They do not walk the streets or stroll the square. They are happy in our family circle. No child of mine has ever been in trouble. God has been good to us.

Letters To The Editor

Letter Of Thanks From Jewish Center

The Editor,
Westlake Times:

The Rev. Ivan Estes, Pastor, First Baptist Church of Linda Mar, Pacifica, Calif.

Dear Pastor Estes:

Will you please convey to your congregation the grateful appreciation of the Jewish Community Center of Pacifica and of their guests for the use of your sanctuary for their recent High Holy Day services.

We all felt that it was a wonderful privilege to attend services in our own community, and we thank you for making this possible.

We are sad, as we know you are too, that these services were among the last to be held in the beautiful sanctuary your congregation worked so hard to build.

We are sorry to come to the end, temporarily perhaps, of these rewarding years of sharing your Sunday School rooms for our Sabbath School. Your generous cooperation from the first made it possible for us to establish our religious school and to gradually improve its service to our children and parents.

We wish you blessings and success in every way in the building and dedicating of your new church.

We look forward to continued friendly fellowship with you and your congregation wherever we carry on our work, and you yours; and all of us thank you sincerely for all you have done for us.

Sincerely yours,
Jewish Community Center
of Pacifica,
Joseph Weber, President.

Unlocked Cars Spell Trouble

The Editor,
Westlake Times:

Yesterday, Oct. 9, around 12 noon a station wagon came riding down the hill and ended up on our lawn, hitting our palm tree and uprooting the tree and station wagon came to a stop.

What actually happened was the station wagon's door was opened and a five year old child went in and accidentally released the brakes and the car went down the hill.

Thank God that there were no children playing outside at that moment, as you can well verify from all neighbors that our home is the playground of the neighborhood, and once more thank God that no children were there. It could have been a great tragedy.

I do think that we should bring out the importance of this; the locking up of cars and the wheels should be parked correctly. If this were true with this station wagon this accident which could have been a very serious tragedy would never have happened.

Very truly yours,
JULIUS GELLER,
44 Park Manor Drive,
Westlake.

It's News To Vets

Q—I am an Air Force Reservist. Is it true if I am recalled to active military duty I do not have the protection of rights under the Soldiers' and Sailors' Civil Relief Act that returning servicemen of the other branches of service have?

A—This Act, passed before creation of the U.S. Air Force as an independent branch of the service, did not include Air Force personnel. However, subsequent legislation blanketed them for full coverage of rights extended other servicemen under the Act.

Q—How do I apply for an improvement loan on my GI home?

A—If your original loan was a VA guaranteed loan, contact your lender or holder of your mortgage. If you got a direct home loan from the VA, contact the VA Regional Office that made you the loan.

Q—What is the new deadline date allowing Korea veterans the maximum time to get a GI loan?

A—Korea veterans are allowed ten years from the date of their separation from service plus one year for every three months of their active wartime service in which to secure a GI loan. All have until January 31, 1965, as a minimum date, whether their service would entitle them to that date or not. The maximum date beyond which a loan may not be made is January 31, 1975.

Q—Does the VA still operate a hospital at Fort Logan, Colorado?

A—No, the hospital, buildings and most of the grounds have been turned over to the state and is no longer a VA installation.

Thousands of pieces of man-made sapphire will cover the surface of the communications satellite now being developed by Bell Telephone Laboratories.

These sapphires are expected to protect from space radiation the cells of Bell solar batteries which convert sunlight into electricity. In the illustration, an engineer is covering a solar cell for a communication satellite with man-made sapphires.

This protection is expected to enable "working" satellites to endure the rigors of space for ten years or more, relaying telephone calls and television across the oceans.

More than 50 Girl Scouts of the Daly City-Colma area, carried flags of the world in the Oct. 7 Daly City Golden Anniversary parade. On Thursday afternoon, a Fashion Show of Girl Scout uniforms of the past were displayed by Scouts and leaders. The very first uniforms were in Khaki color and handmade. Those displayed were for 1913, 1920, 1932, and down to the very latest.

Rabies Clinics Slated In San Mateo County

The Peninsula Veterinary Association, in cooperation with the San Mateo County Department of Public Health and Welfare, will conduct rabies vaccination clinics again this year. This is a continuation of the program begun in the fall of 1960.

With animal rabies present in 86 of the 58 counties in California so far this year, it is important that pets be protected. This, in turn, reduces the chances of animal rabies and in turn reduces the risk to persons bitten by pets or other animals. A total of 163 rabid animals were reported to the State from 36 different counties between the period Jan. 1 to Sept. 6, 1961.

Dog 11, cat 2, bovine 9, skunk 122, coyote 2, bat 13, fox 2, raccoon 1 ,monkey 1.

While San Mateo remains a rabies-free area, it is imperative that pets be protected to reduce our chances of becoming a know rabies area.

ONE TRAILER ONLY IS NEW LAW

Motoring vacationers who have been in the habit of towing both a camp trailer and a boat trailer simultaneously behind a single automobile will be breaking the law if they continue the practice, reminds the California State Automobile Association.

A law passed at the last session of the State Legislature prohibits passenger vehicles, and trucks that weigh less than 4,000 pounds, from towing more than one trailer at a time.

The law was enacted because of the dangers involved in small vehicles towing two trailers, according to the California State Automobile Association. These hazards include the lack of adequate braking ability, greater tendency to swerve and ss control over both the towing vehicle and the trailers.

Spooks, Ghosts To Arrive For Charity Event

Phantoms can be seen descending nightly into the old house, one of the first structures built in the city of San Mateo. There will be eerie sounds, refreshments and special entertainment to delight all who tour the house. Tickets, at 50 cents a head, yours and your friends, may be obtained from Mrs. Edwin Taylor at DI 4-1084 or any auxiliary member.

Westlake School's 4th Graders Visit Mission Dolores

Hand-carved altars, original bells from Mexico, and a ceiling decorated with vegetable colors where among the many revealing objects enjoyed by Mrs. Hjelmstad's fourth graders from Westlake School on a recent trip to Mission Dolores. The trip was an outgrowth of the study of the mission period in the history of early California.

In addition to learning at first hand the architecture of this period, the class also enjoyed visiting the famous gardens and the cemetery. Of special interest were the statue of Father Serra, founder of the 21 missions, and graves of some of California's early pioneers.

On returning to their classroom, students shared experiences through oral reports, written stories, and drawings. Assisting Mrs. Hjelmstad were two of the children's parents, Mrs. Renninger and Mrs. Dikas.

Happy Holiday Suggestions For Halloween

Parents, are you planning a safe and happy Halloween for your child?

Farmers Insurance Group Safety Foundation officials have offered the following suggestions to make Halloween a happy holiday for your youngster, according to Douglas H. Smith, Farmers Insurance Group agent.

1—Choose light colored costumes or decorations of reflective material so that the youngster can be seen by motorists after dark.

2—Adults should accompany children on streets. Too often in their excitement the small fry dash in front of cars.

3—Be sure a mask isn't obstructing the child's vision causing him to step in front of a car . . . make-up can solve this problem.

4—Insist that the child carry a flashlight. This should be used in jack-o-lanters, also, to avoid fire hazard.

5—All costumes should be fireproof. This also holds true for party decorations.

6—Each child's costume should be of proper fit and length so as not to restrict movement which could cause tripping and falling.

7—Take indoors such tempting objects as trash cans, and tie white strips of cloth on wires or ropes surrounding plants in the yard.

"Remember," concluded Smith, "it is the parents who are personally responsible for the proper conduct of their children at this time of year."

South Dakota was the nation's No. 1 gold producer in 1961 with 554,771 ounces.

For your family, Betty Crocker® suggests a creamy smooth wheat cereal with a wonderful flavor—Wheat Hearts

Breakfast is the most important meal of the day, because it's the first. So it should be hearty and nourishing. That's one reason why Wheat Hearts is so popular here in the West. It gives you a hot, hearty breakfast with a good share of the protein and Vitamin B1 you need every day.

And folks like Wheat Hearts for its distinctive *flavor*, too. It's a toasted, nut-like flavor that no other cereal can match.

Try it, with milk or cream and maybe a little honey. And remember, as Betty Crocker says:

"You and your family need a good, healthy breakfast to start you on your way... And the healthier your breakfast, the happier your day."

Post Office Geared For Christmas Rush

Predicting that the volume of Christmas mail will be the largest in history and even exceed estimates made earlier this year, the Daly City Post Office is gearing for the 1961 Christmas rush, Vincent P. Murphy, postmaster announced today.

"Since we are dependent upon the cooperation of our patrons for the efficient and fast handling of Christmas mails," Murphy said, "the public should know that we have made plans well in advance of the rush season and that they can be implemented at the proper time."

"We are soliciting the support and cooperation of the public to the urgency of an early Christmas mailing," Murphy added, "due to the fact that no deliveries will be made on Christmas eve, Dec. 24, Sunday, or on Monday, Christmas day, except special delivery mail, gift parcels and perishable parcels."

"I should like to remind our patrons also of the necessity of complete and legible addressing of mail, particularly during the Christmas season. The public can assist us greatly in this manner in assuring Christmas delivery of all parcels," Murphy concluded.

Jefferson High School PTA held an interesting meeting last Thursday evening in the school cafeteria with Mrs. Mendel Plansky presiding.

Members of the Mothersingers group of the 17th District, gave an interesting program of songs and history of the group. A recording of 800 Mothersingers who sang during the State PTA Convention, was played. Their unity and magnificence of performance was well demonstrated.

Mrs. Vera FitzGerald, Health Chairman and school nurse, gave a speech concerning the health of students.

Mrs. Wm. Jones, membership chairman, reported that there were more than 300 members already, but that the unit is still short of its 900 member goal. All parents of Jefferson High School students and their interested friends are urged to become PTA members. Membership dues are $1 for the first parent, and .50c for second member.

Since there will be no money-making functions this year, budgeted expenses for the unit can only be met through membership dues collected.

Policemen's Ball To Be Held Nov. 4

Tickets are in the mail this week for the 33rd annual ball of Peninsula Police Officers Association.

The event, to benefit the association's Widows and Orphans Aid and Welfare Fund, will be held Nov. 4 at Bay Meadows clubhouse, San Mateo.

"We're inviting all residents of the area, from Daly City through Sunnyvale," said Officer William Rodgers of the San Bruno Police Department, who, as first vice president of the association, has been appointed ball chairman.

"The membership of our organization, nearly 400 strong, has gone overboard to make this the greatest ball in our history," he added. "People who attend will not only have the satisfaction of knowing they're helping a fine cause; they'll also be guaranteed much more than their money's worth in a fine, fun-filled evening."

Peninsula Police Officers Association, which now has members from 17 local departments, is headed by Officer James Allen of San Mateo.

Tickets for the ball, Allen said, are going out from each of the represented departments: Colma, Daly City, Pacifica, Half Moon Bay, South San Francisco, San Bruno, Millbrae, Burlingame, San Mateo, Hillsborough, Belmont, San Carlos, Redwood City, Atherton, Menlo Park, Mountain View and Sunnyvale.

"We try to keep the price as low as possible—this year it's $1 a ticket," Allen said, "so that we can encourage maximum public support."

POLICEMEN'S AID

Over the more than three decades since its inception, he added, the association has paid out many thousands of dollars to the survivors of policemen who have died or been killed. Present benefits are $3,000 for natural deaths, double that for fatalities while on duty.

"A policeman's life is hazardout, to say the least," Allen pointed out. "We in the association feel that our program of benefits, financed largely by the annual ball, is little enough to do for the present peace of mind—and the future financial welfare—of our members' wives and children.

"The success of our previous affairs is evidence that the public shares this conviction. There are hundreds who attend each year and thousands more who buy the tickets as a demonstration of their support, even though they cannot attend."

Get Acquainted Night Slated For Westmoor High PTA

Starting time is 8 o'clock.

Mrs. Benjamin Pulsifer, PTA president, will conduct a short meeting and present recommendations on the budget submitted by Roy Johnson.

Mrs. Roy Milam and Mrs. Herbert Quandt are in charge of the membership drive. The membership goal for the coming school year is 500 members. Tables will be set up in the gymnasium to sign up all parents attending the meeting on Oct. 19.

The budget for the year totals $1,302.55, the single largest expense item is three $100 student scholarships. Outside of membership dues, the one money raising project for the year will be the annual Christmas dinner and basketball game the first week of December.

Mrs. Stella Jensen --- A Record Of Service To Education, Youth

By RANDY MARCUS

A woman with a remarkable record of service to education and youth is Mrs. Stella Jensen.

Originally from Ohio, she and her husband moved to this area in 1903. From which time her husband held the position of superintendent of Olivet Memorial Park until 1946.

Mrs. Jensen is probably the earliest past president of the Jefferson High School PTA still living in this area. This PTA was formed in 1925 and Mrs. Jensen was its sixth president.

Jefferson High School probably owes its existence in part to this lady, as the then superintendent of the Jefferson Elementary School District, W. J. Savage, requested her assistance with plans for a much-needed high school in this area.

TIME AND ENERGY

She has contributed her time and energy for 24 years as a trustee of the board of the Jefferson Union High School District.

For 15 of those years she also was a member of the San Mateo Junior College District Board, and for the past five years she has served on the San Mateo County Board of Education, and was the first non-professional member to be elected to this position. As a member of the San Mateo County School Board, she also was on the State School Board.

To this growing list of positions must be added that from 1942 to 1944, Mrs. Jensen served as president of the 17th District, California Congress of Parents and Teachers.

This energetic woman raised a family of two boys and a girl who was an Olympic backstroke champion before she married. Mrs. Jensen now has great-grandchildren, scattered in various parts of the country.

RED CROSS ORGANIZER

Back in 1910, Mrs. Jensen Back in 1910, Mrs. Jensen worked with Margaret Pauline Brown to form a girls social club in Colma. Later she was instrumental in starting Daly City Bethel 198,of the International Order of Job's Daughters, for which group she is now Deputy Grand Guardian.

She takes justifiable pride in a special Certificate of Appreciation signed by Woodrow Wilson, for her work in cooperation with Mrs. Emma Woolsey, in the formation of the first Red Cross unit in this area during the first World War.

Girl Scout work has also been part of the varied interests to which Mrs. Jensen has devoted herself. In 1953 she acted as first president of the Council of Girl Scouts.

She and her sister now live in a charming white cottage in Colma surrounded by a varied and interesting collection of pictures and mememtoes which show her full and still busy life.

SIXTH PRESIDENT of the Jefferson High School PTA is Mrs. Stella Jensen of Colma. She is probably the earliest past president of this organization still living in this area. The high school owes its existence, in part, to this lady.

Witnesses Hear Call To Unite

Hundreds of Peninsula and San Francisco ministers turned out for the final sessions of a three-day training conference in San Mateo. Harold E. Casperson, presiding minister of the Daly City congregation of Jehovah's Witnesses, said regular Watchtower Society meeting schedules would be resumed this week.

Some 2154 were present to hear Lester M. Dugan, Watchtower Society District representative, speak on the subject "Uniting Men in a Split-up World." Dugan pointed out that although the present crisis at the United Nations is evidence of a divided world, earth-wide peace and unity can be seen in the New World Society of Jehovah's Witnesses.

He attributed this condition to their close adherence to the Word of God and encouraged greater Bible study for all people.

In announcing the weekly meeting schedule to be resumed at the local Kingdom Hall, Casperson described it as a school for regularly training ministers. "Each week five separate hour study periods are conducted by appointed instructors," he stated.

"The school program is continuous and includes courses in the Scriptures, the study of religion, ancient history and missionary service." Tuesday at 8 p.m. a congregation Bible study is held using the book "Your Will Be Done on Earth" as a study aid. The public speaking class on Thursday evening presents Bible talks on selected subjects as well as a reading of the Bible using a modern speech translation. This is followed by the ministry development class which provides a training course in the public ministry service.

A public Bible lecture is scheduled each Sunday at 4 p.m., followed by another weekly congregation Bible study using the Watchtower magazine as a guide.

Casperson extended an invitation to local residents to attend the Bible discourse set for this coming Sunday, Oct. 22, at 4 p.m. at Kingdom Hall, 206 Plymouth avenue.

Visiting minister Robert L. Korte from the Redwood City congregation will speak on the subject "Youth's Opportunities in this Modern Age." All five meetings are open to the public and no collections are taken.

The View From ...Behind The Badge

PARADE DETAIL

Our thanks are extended to the local citizenry for their good natured cooperation during the Anniversary Parade held here recently. Re-routed traffic and parking changes in their accustomed habits.

This cooperation and lack of complaint made the police job, already enlarged in scope, much easier and more pleasant than it otherwise would have been. Thanks, citizens!

Parade day was a work day for the Police. It was necessary to concentrate personnel along the parade route, as well as at the assembly areas and dispersal areas. This, in addition to rerouting traffic from Mission street, one of the main arterials in this city. Regular beat patrol had to be maintained at the same time.

In order to do this, four patrolmen were assigned to their regular beats. All days off were then cancelled and all hands were ordered to report to the station at 11 a.m. the day of the parade. In order to augment the regular Poilce personnel for this purpose, fourteen Daly City Police Reserves were ordered to report also. Chief Ray Savage, of the Broadmoor Police, also assisted, ably, with the appearance of his regular and reserve forces.

Counting only man hours expended on the day of the parade, 391 hours were worked in addition to those hours put in by the people normally on watch at that time.

STREET DANCE DETAIL

The Police are sometimes far to the right in their thinking when it comes to activities that upset the routine of everyday living. This is because the Police have, rather justifiably, a somewhat jaundiced and cynical regard for human nature. In a somewhat restricted sense, then, we are likely to overhear Police-type mutterings when civic plans are laid for fairs, festivals, street dances, elections, or similar catastrophes.

Such was the case when the men were detailed to work the street dance on the night of the parade. It wasn't that they didn't want people to enjoy themselves, it is just that they thought that possibilities were excellent that many would not be allowed to enjoy themselves, and that others might be injured as the result of the activities of visiting hoodlums.

By using otherwise inoffensives automobiles for the purpose, this type of person often will visit areas away from the home neighborhood. In these far away neighborhoods, these people sometimes feel free to act the fool or start a fight or get drunk — this, because no one knows them. We feel that because of this sort of activity street dances are not only passe', but dangerous and difficult to control as one would control an inside dance.

On the night of the dance, the assigned officers were aware of their accurate forecast. In addition to some local people (all well behaved), the crowd contained a large proportion of out of town visitors, a goodly number of whom identified themselves with gang groups. The Mission District and Fillmore District, among others, were represented.

Several clubs were removed from the possession of visitors shortly prior to their deciding to leave the dance (and town). One group of disturbers was escorted from a nearby creamery to the bus line. One quartet of young men decided to throw firecrackers into the crowd. They were being interviewed by four policemen as the first (and only) firecracker exploded in the crowd. The quartet decided to go home, and the remaining firecrackers were disposed of by the officers.

A uniformed officer, complete with binoculars, observed crowd actions from a perch atop the Masonic Building. Ten uniformed men circulated through the crowd, and there was no trouble.

It was only necessary to arrest one individual. This person was in the act of forcibly elbowing his way through part of the crowd — his elbowing stopped when two plainclothesmen, detailed to the dance, spoke to him about their bruised ribs. They discovered that he was intoxicated, and he was booked forthwith.

This young man proved to be a good choice for an arrest, as his record showed robbery, assaul tarndesstigeiasrtrn sault and resisting arrest as part of the past of this visiting 19-year-old!

Vista Mar School News

Miss Mary Wade's kindergarten classes and Miss Mary Helen Monroe's second grade have combined forces and made a tape recording which tells simply the story of the life cycle of the monarch butterfly, from the egg stage to the adult butterfly.

The kindergarten classes are using the tape to provide background for rhymthmic activities. They are pretending to be butterflies, caterpillars, and can even turn into a crysalis when that part of the story reveals itself.

Second graders Cindy Barringer, David Taxier, Barth Brager and Susan La Fave read the dramatic parts to the accompaniment of appropriate music.

Since the school term began in September, several of the Vista Mar classes have been watching and learning about the life cycle of the monarch butterfly. Various activities and interest centers have resulted from these classroom observations, in terms of children widening their interest in the study of other varieties of insects. Many specimens have been brought to school. Some of the learning has been well interpreted in art and language areas.

In the near future the kindergarten children will invite the second graders to come and see the results of their joint efforts. This type of motivational learning is what philosophers term "work that is play."

GOVERNMENT

Student body government is well on its way at Vista Mar. Room representatives met and elected the Student Council chairman, Michele Seesee, and secretary, Sue Thomas.

A discussion of activities and goals for the student body followed the election, and representatives returned to their classes to report.

Following are the student council representatives for the school year 1961-62: James Torlakson, Michele Seesee, Chris Torlakson, Rhonda Imsick, Pete Scannell, Sut Thomas, Jeff Kaus, Linda Karp, Don Wood, Kristeen Desormeaux, Daniel Pulizzano, Michelle Mountanos, Ronald Giusti, Nanette Millar, Michael Galisatus, Jill Perkins, Michael Mountanos, Jaynie Kluetsch, Edward Anderson, Merle Jensick, Raymond Taylor, Cindy Barringer, Vincent Panelli, Janet Coker, Dianne Wagner, Paul Salsgiver.

Meetings established through the faculty counsellor will be held with Secretary Sue Thomas recording minutes. This kind of training and experience for children is closely correlated with their classroom activities, in terms of problem solving at the school level, in terms of actually experiencing the democratic way of life.

Rams Cross Country Tromps Cap

Westmoor's Rams, winning both the junior varsity and varsity meets, trounced Capuchino cross country team in the Ram second league meet on Oct. 10.

The first six men of the varsity race were under 10 minutes and Westmoor had men in the first three places.

Brandt Larsen took first with a 9:37 and was closely followed by his teammates Dennis Tracy and Ted Pickerrell, who ran 9:42 and 9:43, respectively.

Capuchino placed three men, Parker, Hanschen and Cottini, who ran 9:48, 9:56 and 9:57, respectively, between Pickerrell and Ken Rau, who ran 10:00, placing seventh. Westmoor's fifth man, Ed Raymond, placed ninth for the team, with a 10:07, giving Westmoor 22 to Capuchino's 33.

In the junior varsity race, the first six men were under 11:00 minutes. Jim Mills, Chad Reade, and John Behrman, who ran 10:24, 10:34 and 10:35, respectively, gave Westmoor the first three places.

Vanderhule of Capuchino, who ran 10:58, was the only opponent in front of Westmoor's fourth and fifth men, Tom Dooley and John Bartelemez. Thus the J. V. Rams ruined the Knights, 17 to 50.

The Frosh-Soph team lost to Capuchino by a score of 43 to 24. However, Westmoor's Calvin Costa and Bob Beukers took first and third, respectively, with the times of 10:09 and 10:25. Dillo ran 10:16 and thus placed second for Capuchino. Fourth through eighth places were taken by Capuchino with times from 10:33 to 10:41.

Westmoor's coach, Alvin Wolf, was very pleased with the meet's results and commented that he hopes the winning streak will continue.

Rams Fall Prey To Capuchino Mustangs, 18-7

In a wild and woolly final period, Westmoor's Rams fell prey to the Cap Mustangs 18-7 on the winner's field last Friday.

Big play of the game was Jerry Lewis' 73 yard touchdown run for Capuchino's final tally.

Cap took the opening kickoff at their own 30 and marched 70 yards without surrendering the ball for a 6-0 lead.

Early in the second period Allard recovered a fumble on the Ram 47. Nine plays later Barich slammed five yards for the score to tie the game at 6-6. Barich slashed off tackle for the conversion, making a 7-6 Ram lead.

Through the remainder of the second and third periods, Rams outplayed the Mustangs but could not score. Mike Kearney picked off a Mustang pass and raced for a score but officials ruled that he had stepped out of bounds up field.

Mustangs took over on downs on their own 42 and went 58 yards to paydirt. Bob Jackson scored the touchdown on a 19 yard end sweep on a pitchout. Once again the conversion was no good and the score stood 12-7.

The ball changed hands several times in the fourth quarter before the Mustangs took over on their own 27 and Lewis smashed over the center, broke clear at the 40 and raced 73 yards for the score. The kick was wide to the left and the score stood at 18-7. The ball changed hands several times before the end but neither team was able to move the ball.
